SKILLS

Languages: JavaScript, Python, Rust, Java, SQL
Frameworks: React & Next.js, Vue & Nuxt.js, Android, Jest, JUnit
Technologies: AWS, Linux/Unix, Docker, Git, Grafana
AI & Tooling: Leverage Claude, ChatGPT, and Cursor to run parallel agentic workflows across large code-bases, accelerating planning, navigation, and delivery.

EXPERIENCE

Dropbox, Vancouver, Canada

Sept 2022 – Present · 3 yrs 6 mos

Software Engineer II

- Worked on the desktop client (**Python**, **TypeScript**, **Rust**) with end-to-end ownership of high-visibility surfaces seen by over 10 million weekly users.
- Helped plan and execute a modernization of the desktop application, migrating 10+ year old legacy code to modern frameworks.
- Optimized data transformation pipelines resulting in >\$150k monthly infrastructure savings.
- Created and managed a team-wide monthly metrics review to track and react to trends in user behavior.
- Helped organize an in-person frontend summit for peers to present new developments in frontend work at Dropbox.
- Mentored one intern and one full-time employee, designing projects and providing tangible feedback.

Amazon Inc., Vancouver, Canada

Jun 2019 – Sept 2022 · 3 yrs 3 mos

Intern & Software Development Engineer I

- Built a **Java** service on the Configurable Workflows team to automate progression of candidates and new hires.
- Created and owned a **React** application giving recruiters insight into candidate journeys.
- Visualized complex hiring workflows as interactive graphs using **React** and **D3**.
- Increased team service metrics collected by over 100,000 data points; designed dashboards for global services.
- Tested code with **JUnit**, **Jest**, and **Mockito**; participated in regular on-call rotations.

SSHRC-CSRH, Ottawa, Canada

Mar 2018 – Jun 2019 · 1 yr 3 mos

Software Developer

- Maintained the back-ends of several government websites and services in **C#** and **.NET**.
- Built a **React Native** app for use by managers and directors at conferences.
- Performed data analysis and created business metrics from **SQL** databases.

EDUCATION

University of Ottawa

Graduated December 2020

B.Sc. Major in Computer Science, Minor in Economics

PROJECTS

[Loci](#) ↗

React Native, iOS & Android

Cross-platform app surfacing nearby content via a custom GeoJSON radius algorithm; backed by a REST API with an admin portal built for data compliance, and a CI/CD pipeline with automated app store submissions.

[Vineries.ca](#) ↗

React & Node.js

Winery aggregator with tour booking and a self-serve owner management portal; deployed via a CI/CD pipeline that enforces dependency ordering to guarantee module compatibility.

[Vaccine Passport \(SHC\)](#) ↗

Java & Android

A native Android application that contains a custom implementation of the SHC (Smart Health Card) protocol to read/generate QR codes; published to the app store with 5k+ users.

[Garlicoin](#) ↗

C++ & Node.js

Satirical cryptocurrency featured in Forbes; \$1.5M market cap and \$50k+ 24h volume. Modified Litecoin with the “allium” ASIC-resistant proof-of-work algorithm.
